Chieh-An (Joanne) Chien

Design Team Lead | Product Designer (UI/UX)

Taipei, Taiwan | joannechien43@gmail.com | linkedin.com/in/joannechien43

SUMMARY

Design team lead and product designer with nearly 10 years in UI/UX across fintech, lifestyle, and global productivity apps. Designed 20+ apps, from 0-to-1 launches to large-scale redesigns, including a 10x sign-up conversion lift for Forest. Now heads CMoney's 40-person design department, building design standards and AI-enabled workflows that cut workflow time 60–90%.

EXPERIENCE

Design Team Lead · CMoney — Apr 2025 – Present

- Lead a 40-person design department spanning product, visual, and editorial design, and set its design standards.
- AI adoption: drove an AI x Design Ops program embedding AI across pre-, mid-, and post-design stages, and led the department to automate visual production with AI agents, cutting workflow time 60–90% and speeding asset output 3–45x; taught a Vibe Coding Workshop (Aug 2026).
- Capability upgrade: made AI fluency a must-have in hiring and performance reviews; defined a 3-tier vibe-coding delivery model so designers ship working prototypes; introduced scenario-based interviews and 1–5 behaviorally anchored probation ratings.
- Team restructuring: moved designers from a central pool into business units with product ownership; retitled UI/UX designers as Product Designers, built a shared job-level framework, defined Group Lead span of control, and ran 9-box talent reviews with a lead succession pipeline.

Senior Product Designer · Seekrtech — Forest (global productivity app) — Mar 2024 – Apr 2025

- Redesigned the Forest sign-up flow, lifting registration conversion from 1.9% to 19% (about 10x).
- Optimized the mission system, raising daily sessions by 25% and DAU/MAU by 12%.
- Redesigned the end-to-end subscription flow, driving +15% YoY revenue.

Senior Product Designer · CMoney — Oct 2016 – Feb 2024

- Designed and shipped 20+ fintech and lifestyle apps, from 0-to-1 launches to redesigns and growth features.
- Led 0-to-1 design of 囍搞發票 (an e-invoice lottery app), named Google Play's 2022 Most Promising App.
- Drove UX strategy through user interviews, surveys, and NPS research.
- Led 0-to-1 design of 英文知識王—吐司英文 (Toast English); its 2.0 redesign lifted day-1 retention from 29.6% to 44.0%, and an animation system cut design time per new flavor by 75%.
- Other products: a 0-to-1 podcast storytelling app; an e-invoice rewards app (發票集點王), an e-invoice carrier app (發票載具), the beauty-review app iCheck (iCheck 美妝好朋友), a stock chip-analysis app (籌碼 K 線), and investment mentor apps.
- Led innovation proposals in CMoney's X Lab (internal innovation team).

PERSONAL PROJECTS

Co-founder · 好好理財 (personal finance media brand) — Jul 2019 – Present

- Took an ETF selection app from 0 to 1, hitting #1 on the finance charts in 2 days and staying top 3 for 10 days.

Founder · 小本 hsiobun (independent creative brand) — Jul 2016 – Present

EDUCATION

Master of Design (M.Des.), Department of Design · National Taiwan University of Science and Technology (NTUST) — Sep 2021 – Jun 2026

- Thesis on AI and human–machine collaboration in UX and design practice.

Associate Degree, Applied Foreign Languages · National Taipei University of Business — Sep 2012 – Jun 2016
